

Pre-Screener Information

Pre-screens must be conducted by a SAR ATG representative prior to enrollment into CAT I SAR School. Pre-screens are conducted every Friday at 0800 at the Admiral Prout Track on Naval Station San Diego dry side. Service members must be there at 0800, no exceptions.

Recommend pre-screening a couple weeks in advance to SAR school convene date to ensure the candidate gets a billet. Service members must bring the following paperwork to the pre-screen, if candidate is missing any paperwork, they will not be screened by ATG representatives:

- DD Form 2807 (Medical Questionnaire signed by medical officer. Valid for only 90 days to class convene date)
- DD Form 2808 (Full physical for SAR. Good for two years and MUST be signed by Medical and Dental officers)
- Vision can be no greater than 20/100
- 2nd Class swim cert or FLTTPS report
- Memo from command signed by CO or by direction of stating service member has had no more than one NJP within 18 months. Service member has had no DORs from a high risk course within 24 months (Exceptions: BUD/s, SWCC, and EOD). Service member is a volunteer.

Once the pre-screen is complete, billet requests will be sent to TSC requesting a billet for San Diego SAR School by the ATG representative. For Jacksonville SAR School, service member will complete the SAR pre-screen and pre-screen forms will be sent to SURFLANT showing that the candidate has completed the pre-screen. The ship/command will then request a billet through ENTRS and SURFLANT will approve the request. If there are any questions, please call ATG.
